

THURSDAY 26 FEBRUARY | 6:30-8:00PM NZDT

When Culture Meets AI

Exploring tapu, noa, and conversational AI

Co-Researchers: Lee Palamo & Lian Passmore

Masters of Technological Futures AcademyEx

Mā te kōrero ka ora

Through conversation,
there is life

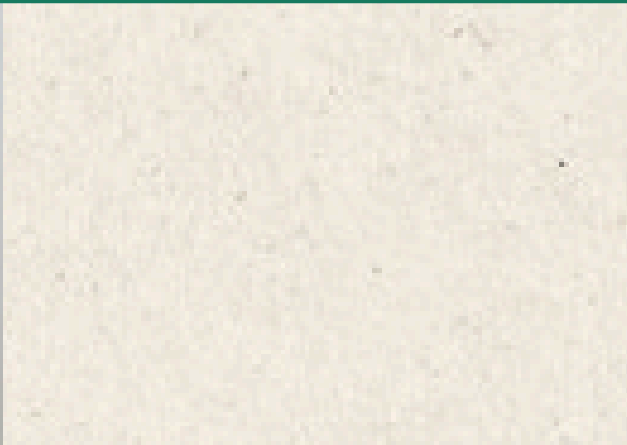

What was it like doing your
AI-conversation this week?

Ko wai māua?

Who are we?

How might we design ethical conversational AI for vulnerable interactions using Māori and Pasifika values to protect marginalised communities?

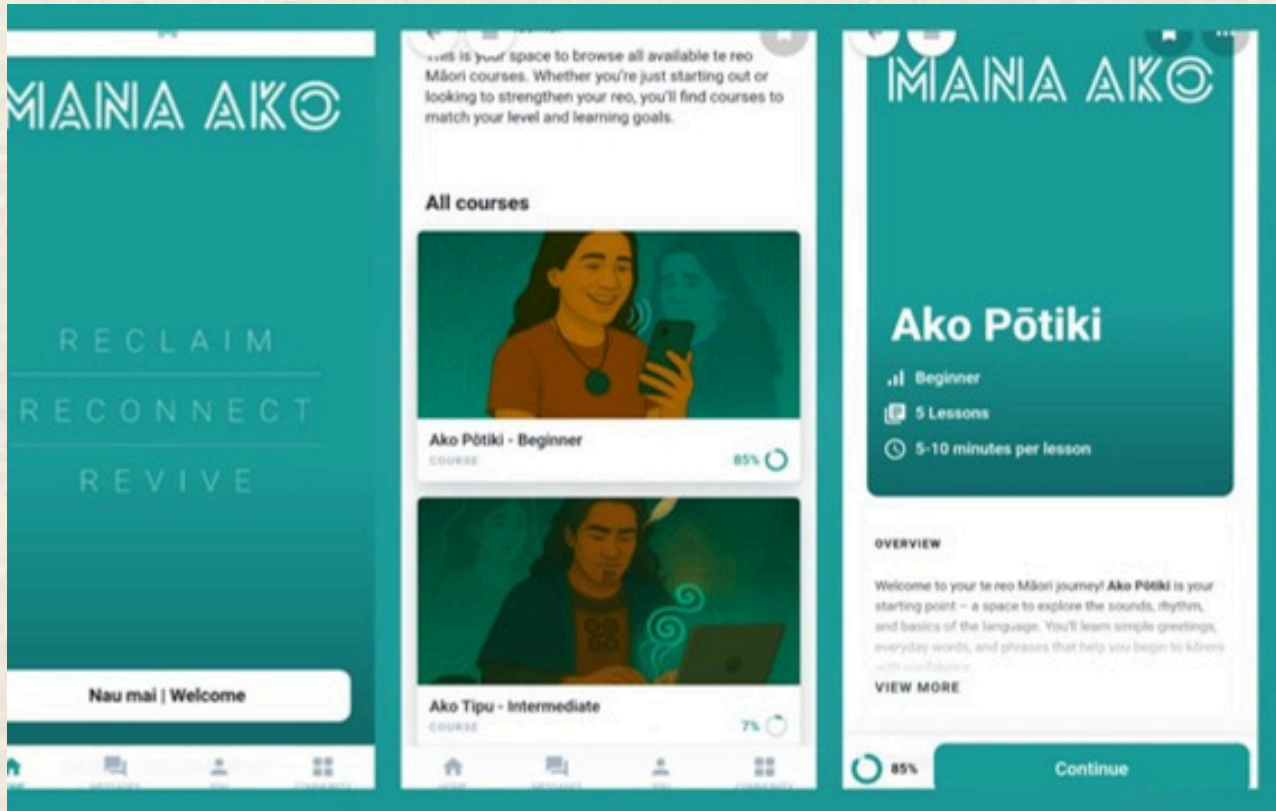

Ko Lian ahau

Work
from
anywhere

How might a conversational AI support te reo Māori learners by providing a personalised, culturally grounded, and emotionally safe learning experience?

Tonight's Journey

90 Minutes

- Break out rooms
- Group space
- Individual Reflection
- Chat
- Tech Issues or Questions - Ask Lee
- Parking Lot
- Loop Back In

YOUR EXPERIENCE

WHAT WAS IT LIKE THIS WEEK?

THE ENCOUNTER

WHAT FEELS RIGHT — AND WHAT DOESN'T?

THE CULTURAL

WHO DECIDES WHAT AI SHOULD HOLD?

THE PARADOX

A TENSION WE CAN'T RESOLVE ALONE

REFLECTION

HOW DO YOU FEEL ABOUT AI NOW?

"Look at me talking to you. I'm
warming up. Interesting."

Your feelings
are data

Speak from
your experience

It's okay **not**
to know

What was your experience like this week?
What surprised you?

"Filterless conversation is
what you need."

What feels right about AI in vulnerable spaces,
and what doesn't?

"You're an infinite space holder.
There's no burden on another person."

"Vulnerability is coupled with emotion, and AI doesn't have that."

Who gets to decide what AI should hold?

Who should be at that table?

Who's currently missing?

Is that a tension we try to resolve,
or a tension we learn to hold?

Mā te kōrero ka ora

Through conversation, there is life

Share your reflections

How do you feel about
Conversational AI **NOW**?

Thank You
